New York, April 13.—Cotton had a sercre setback to-day after the early trading, which came near getting the market opened at an advance of 486 points on overnight buying orders and covering by resterday's sellers on firmer cables. The market sold up to a net gain of Ilali points, making new high records for the season, with October contracts touching 10.03. At this level, realizing increased, and, while offerings were well taken, prices were 3 to 4 points off, with some of the professionals selling for a reaction. The market then turned weak and prices fell away to the close, losing 6 to 11 points net. Cotton is not yet fully established above 18 cents.
